#### CHAPTER 1

## Advice

#### 1. General Advice

- Do about four courses per term.
- Start around six courses per term, narrow it down.
- Understanding lecture N before lecture N+1.
- Enjoyment of different courses.

#### 2. Examples Classes

- Gives a sheet of problems in two weeks, we will go through the questions.
- Very important to attempt the questions.

## 3. Student Groups

• Group of students getting together to support each other.

#### 4. Advisor

- October 16 Careers, USA PhD's, funding.
- October 30 PhD's at Cambridge and in the UK.
- Open Days Statistics Lab, Cambridge Center of Analysis (CCA).

#### 5. Exams

- 17-19 units taken
- 17/18/19 cannot hurt to take.
- Start of Easter term is where the decision is made.

#### 6. Essays

- Read a bunch of mathematical papers, present the papers at a excellent level.
- E.G. paper gives definition, essay gives examples.
- People tend to enjoy the essays.

#### 7. Student Support

• Tuesday 15 October - Probability and Measure catch-up lectures.

#### Part III Cafe

• Mon/Wed/Fri 4/5/4

#### Study Groups

- Discuss lectures with you colleagues
- examples/questions
- Organize yourselves

## Wednesday Talks

- Every Wednesday 4:45P.
- Talks by different people of topics
- Helps for applying to PhD's
- How to propose a talk
- How to read a paper

#### Calendars

- cugms.soc.sucf.net separate page for Part III students
- www.maths.cam.ac.uk/facultyboard/calendars Google Calendar for Part III mathematics

## 8. Statistics

- Rajen Shah
- $\bullet$  D1.15, Wednesday 1-2
- r.shah@statslab.cam.ac.uk

#### 9. Probability and Finance

- Geoffrey Grimmett
- D1.02, Thursday 1:15PM

# CHAPTER 2

# Safety

- (i) Alarms tested every Wednesday morning 8:30-9:00am.
- (ii) facilities@maths.cam.ac.uk
- (iii) 31818 (routine) or 101 (emergency)
- (iv) 01223 767 444
